WELCOME TO THE 40TH PIGS EAR BEER FESTIVAL

ALE BE BACK!

On behalf of the East London and City (ELAC) branch of the Campaign for Real Ale (CAMRA), we are delighted to welcome you to the Round Chapel for our 40th Pig's Ear festival. As well as being a significant milestone for the festival, we have been marking ELAC's 50th anniversary throughout 2024 so this is a perfect conclusion to those celebrations.

We give thanks to the Trustees and team at the Round Chapel (special thanks go to Philip Lloyd and Patrick Hamill) for allowing us to use this wonderful building once again.

We're very pleased to offer around 180 cask ales, as well as numerous international beers and ciders. It isn't possible to fit all of the casks onto the racking at once, so a live online list is available at pigs.realaledb.com and will be updated as often as possible.

All beer is sorted alphabetically by brewery as much as possible, starting on your right by the Glasses stand, and includes some notable specials and beers appearing in cask for the first time.

If cider and perry is more your bag (in box) there is a dedicated bar opposite the beer

bar. The international bar team have a sought-after selection of draught and bottles, and also have non-alcoholic beer for the first time and a limited range of wine and soft drinks.

SOUVENIR GLASS

To commemorate our 40th festival, we have produced a limited run of special non-refundable souvenir glasses for optional purchase. These cost £5, which includes a token for a free half pint of beer (up to 5% ABV) or cider, and are available on the glasses stand as well as via the membership and games stands.

CLOAKROOM

Our cloakroom is in the back left-hand corner, opposite the food vendor. Depositing your coats and bags there will help us to ease crowding inside the hall, meaning you can get to the bar faster!

SPONSORS

Our thanks and appreciation go to all our sponsors and supporters who provide vital backing to the festival and make the

SPEAKER'S CHARITIES

Since the festival moved to Hackney in 2005, Pig's Ear has supported the Speaker of Hackney's charities. In 2023 we raised over £1,100 and wish to do even better this year. Councillor Sheila Suso-Runge, the Speaker of Hackney, has chosen the following as her charities for this year:

HACKNEY MIGRANT CENTRE

Hackney Migrant Centre delivers a free, weekly advice and support service for vulnerable migrants on immigration, housing, welfare and access to health. It supports visitors to resolve their immigration problems and move out of homelessness and destitution in the long-term, as well as assisting them to address immediate issues.

Registered charity no: 1122363.

<https://hackneymigrantcentre.org.uk/>

RIISING TIDE TRUST

Rising Tide is an arts charity based in east London focused on helping young people access the music and related industries and offering professional facilities to the local community, creating meaningful employment pathways for 13 to 19-year-olds via workshops, master classes, and professional facilities through a creative hub.

Registered charity no: 1113732.

event viable: **40FT Brewery, Against the Grain Cidery, Beerblefish Brewing Co, Brentwood Brewing Co, Brockley Brewery, East London Brewing Co, Five Points Brewing Co and Libertalia Brewing Co.** We also thank **The Boleyn Tavern (E6), Ye Olde Rose & Crown (E17) and Black Lion (E13)** for their support in providing meeting venues and storage throughout the year.

BEER AND CIDER OF THE FESTIVAL

You can take part in voting for the Beer and Cider of the Festival and provide us with valuable feedback. The voting form can be picked up from any of the bars and is something both we and the brewers take very seriously, as it comes from our customers – YOU!

PLEASE RETURN YOUR VOTING FORM TO THE FRONT DESK ON YOUR WAY HOME.

VOLUNTEERS

Everyone who works at this event is an unpaid volunteer. Do ask for their advice about the beers you want to try, but during busy periods please be patient as they are not professional bar staff. Help us to help you by being honest as to who is next to be served. Please be aware that no tasters will be offered on beers of 7.5% and above.

We need new volunteers to help with the planning and setting up of future festivals. You do not need to be a CAMRA member.

LocAle is CAMRA's environmentally friendly initiative for beer brewed within 30 miles of the outlet. Our LocAle breweries are marked **LOCALE** in this programme.

Even closer to home, all our East London and City CAMRA branch breweries are marked **EAST LONDON**

By joining our happy band, whilst working at the festival you receive free beer [within reason], subsidised food, and during the year a staff party/outing [to the brewery that wins beer of the festival]. You can also join in our various branch outings and pub crawls. Please contact us via elacbranch@mail.com.

TAKEAWAYS

Unfortunately, due to changes to the UK's alcohol duty rules, you will not be able to take away any draught beer or cider in sealable containers for consumption off the premises. Pre-packaged drinks (bottles and cans) are available for takeaway as usual.

FINALLY

From all of us at the Pig's Ear East London Beer & Cider Festival, we wish you a happy and safe Christmas and New Year to you and all your families. We hope you enjoy your visit and join us again in 2025.

FESTIVAL ORGANISERS

PAYMENTS

We prefer contactless payment on the bars. Anyone unable to make contactless payments will be able to purchase beercards using cash. Please note that none of the bars will be taking cash. If not using contactless payments, you must have a beercard to buy drinks from the two UK draught beer bars, international beer bar and the cider bar.

Beercards are available in denominations of £10 from the Glasses counter. To pay for drinks, simply hand over your beercard and the volunteer who serves you will cross off the appropriate amount.

Any credit you do not spend can be donated to the Speaker's Charities in the boxes provided or refunded at

the Glasses counter. Refunds are not given at any other bar.

We may be using old stock so despite what is printed on the cards they are valid all sessions but **PLEASE** treat your beercard as cash – we cannot replace lost cards any more than lost fivers!

DON'T LEAVE YOUR GLASS OR BEERCARDS UNATTENDED ON THE BAR.

CHESHAM ARMS

Saved by the community after an attempt to turn it into flats, the Chesham Arms is a traditional East London public house with striped floors, open fires and a leafy beer garden

Come inside for a friendly welcome, great beers and bar snacks

TRIBUTES TO FORMER VOLUNTEERS

COLIN HERBERT

The Pig's Ear Festival organisers were very sad to hear the news of the death of Colin Herbert earlier this year. Colin, from CAMRA's South West London branch, took on the position of Chief Steward of the Pig's Ear Beer Festival whilst it was at the Ocean venue, and carried on in the role for a number of years after it moved to the Round Chapel. Colin was very well respected by his stewarding team and by the Pig's Ear organising committee to whom he would offer sound advice and support. Colin was a very knowledgeable person and easy to chat to. He will be missed by our festival and the larger CAMRA family.

ELSPETH BRADY

We were notified of the death of Elspeth Brady during the Summer. Elspeth worked as a steward at a number of Pig's Ear festivals over the years. A lovely lady who will be sadly missed. She is survived by her husband Mike, also a CAMRA steward.

DRAUGHT BEER

As always, our beer gurus have hunted across the length and breadth of Britain to find beers you may never have had before, some possibly even from breweries you've never tried before. This year, we have several green-hopped beers, where fresh hops are picked and added to the brew the same day.

Several of our local East London breweries have once again supplied us with special one-off beers for the festival, including some who don't normally produce cask beer at all.

To help you decide, we have a colour coding scheme and the breweries' descriptions of their beers.

Not all beers can be on at the same time due to limited stillage space, so please refer

to the labels on the casks for what is available when you visit. To view a live beer list on your phone, scan the QR code or visit pigs.realaledb.com.

The list below was correct at the time of printing but we always have a few last minute surprises up our sleeves so keep your eyes peeled.

Unfined beers, beers fined with non-isinglass (vegan friendly) finings, and vegan beers are marked with indicator 'V' (suitable for vegans) in the beer listings. Gluten free beers are marked with indicator 'GF'. See cask end labels and for further information regarding allergens please ask the bar staff.

Local Pubs enjoy longer cask life with **Beer Saver**

A recent local trial extended the life of a cask beer beyond 3 weeks!

Beer Saver has roots dating back to 1992 when Ian Lee, MD began designing and developing the original **Beer Saver** system to significantly extend the 'shelf life' of draught beers. The earlier model underwent extensive scientific and microbiological evaluation at Herriot-Watt University in Edinburgh. Endorsed by independent experts, this efficient and user-friendly system has been extensively tested to ensure high levels of beer quality.

After successfully perfecting the clean cycles for draught keg and craft beer, our attention turned to cask ales. Through the use of our latest inhibitors, we have significantly extended the life cycle of three separate cask ales at the **Green Man in Stamford**, with the longest period reaching 21 days (endorsed by CAMRA representative Alun Thomas, stating that it was one of the best pints of that particular ale he had tasted!)

The positive results have attracted interest from the industry, including notable figures like Pete Brown and

Marston's. We believe our technology can revolutionise the cask ale market, allowing cask beers to compete on equal footing with draught keg products in terms of shelf life, potentially reinvigorating the industry. With **CaskX**, pubs can offer an increased and more diverse range of cask ales to the public. Our system is easy to install, requiring no modifications to existing beer cellar equipment – it simply clips over the beer lines.

Join us in embracing the future of cask ales and help share the news about **Beer Saver CaskX**. We offer a **free, no-obligation trial for anyone interested**, so help us revive and celebrate the beauty of cask ales, creating a more vibrant and enticing drinking experience reminiscent of the good old days!
